SUBJECT:WED DEVELOPMENT LAB

AIM: INSTALLING AND SETTING OF LAMP/WAMP/XAMPP

The screenshot shows the XAMPP website homepage. At the top is a dark blue navigation bar with links: Apache Friends, Download, Add-ons, Hosting, Community, About, a search bar, and a language dropdown set to EN. Below the navigation bar is the main content area with a light beige background. The header of the main content area features the XAMPP logo (an orange square with a white '83') followed by the text 'XAMPP Apache + MariaDB + PHP + Perl'. Below this, on the left, is a section titled 'What is XAMPP?' with a brief description: 'XAMPP is the most popular PHP development environment. XAMPP is a completely free, easy to install Apache distribution containing MariaDB, PHP, and Perl. The XAMPP open source package has been set up to be incredibly easy to install and to use.' To the right of this text is a video player titled 'Introduction to XAMPP' showing the XAMPP logo. Below the text and video are three download buttons: a green 'Download' button with a link to other versions, and two grey buttons for 'XAMPP for Windows 7.4.8 (PHP 7.4.8)' and 'XAMPP for Linux 7.4.8 (PHP 7.4.8)'. At the bottom of the page is a light grey banner with the text 'New XAMPP' on the left and 'Hi Apache Friends! We just released a new version of XAMPP. You can download these new installers at' on the right.
